

# GENDER INTERSECTIONALITY IN ANTIMICROBIAL RESISTANCE

**14 MAY 2025**

**DR ESMİTA CHARANI**

University of Cape Town,  
South Africa

**MS ZLATINA DOBREVA**

Technical Officer,  
WHO Geneva

**DR DEEPSHIKHA  
BATHEJA**

Indian School of Business,  
One Health Trust

**DR DEBRA GOFF**

Professor of  
Pharmacy Practice,  
Ohio

**DR VIVIANA MUNOZ  
TELLEZ**

Head Programme  
South Centre

## Key Discussion Points

- The intersectionality of gender with other social determinants (e.g., socioeconomic status, education, occupation) in shaping AMR vulnerabilities and outcomes.
- How gender influences antibiotic use, access to healthcare, and infection prevention and control practices?
- Strategies for integrating gender-sensitive approaches into AMR policies, programs, and research

**4PM CET Geneva time/  
10AM EST/  
2PM GMT**

**Moderator  
Dr Afreenish Amir**
